FOR IMMEDIATE RELEASE

ROSELAND COMMUNITY HOSPITAL FILES CHAPTER 11 RESTRUCTURING

November 4, 2026

(Chicago, IL) Roseland Community Hospital (RCH) has filed for Chapter 11 bankruptcy protection in the U.S. Bankruptcy Court. The filing is intended to allow the safety-net hospital to restructure its debt while continuing normal hospital operations.

"Roseland Community Hospital is taking decisive action to protect the hospital from Federal government policies that threaten its future," RCH spokesperson Nikia McGee stated. "This filing is intended to address debt that threatens our operations. It will not disrupt patient care, and it will allow us to continue serving the Greater Roseland community."

RCH has been forced to restructure its obligations due to a recent medical malpractice settlement, several threatened lawsuits involving service agreements, decades of underfunding for safety-net hospitals, and potential Medicaid cuts under H.R. 1.

RCH will continue working with the State of Illinois to ensure that all grant agreements remain in compliance. As part of its commitment to meeting community needs, RCH submitted a "Pivot Plan" to the State of Illinois in August. The plan would expand behavioral health services, create a Same Day Surgery Unit, and establish a maternal-fetal home in partnership with Maryville Academy to better serve patients on Chicago's Far South Side.

RCH has retained Crane, Simon, Clar and Goodman as bankruptcy counsel and expects to submit a Plan of Reorganization within 120 days of the filing.
